

Harvard Film Archive in HOLLIS
March 2012 Update

Activities to date:

Worked with HFA & HCLTS colleagues to map a subset of the Filemaker fields to MARC fields

Created of a draft template in Filemaker for exporting the relevant data

Used Excel to create tab-delimited files that are compatible with MarcEdit,

Developed a draft MarcEdit template to convert those files to valid MARC records (and documentation about using this feature of MarcEdit)

Consulted with Corinna Baksik at OIS about cleaning up data during the record load process

Began to develop Cognos reports for detecting potentially-redundant bibliographic records (once they're in Aleph)
